

# Fifteen Turns

Fifteen shift times with the cover weeks evenly spread

A proposal for discussion, not a decision. Every figure is worked out from the rota by the Marylebone Roster app and set against today's 20-week link.

Does it meet the December staffing levels?

No — 5 of 11

6 not met, listed below. Today's link meets 4. The eleven rules are on page 6.

Can it be run within the limits?

No

1 gap of under 12 hours between shifts and 60 minutes a week over the 35-hour contract, across the whole link.

Is it tiring?

7 patterns to look at

Too little rest after a run of early starts, too many shifts without a two-day break, long runs of early shifts, more than 55 hours in a week, long runs of 8-hour shifts, start times that jump by more than two hours and less than 12 hours between two shifts. Today's link has 5. Early starts and a weekly rotation come with every link, so are not counted. Detail on page 7.

What does it take?

24 people

4 more than today · a 35-hour week · 4 cover weeks · 10 on a Sunday as overtime (today 8).

Are staff where the trains are?

Closer than today

How closely floor staffing follows the December timetable, weekday · Saturday · Sunday: 38.4 · 44.8 · 49.0 (today 52.0 · 65.9 · 71.7). Lower is closer; 0 would be a perfect match. Hour by hour on page 5.

## Staff are likely to welcome

- Every closing shift shorter — by 55 and 70 minutes
- The average shift 16 minutes shorter
- No shift longer than 8h30 (today 9h10)

## Staff are likely to worry about

- Fewer full weekends off: one in 12 weeks (today one in 5)
- 10 new shift times to learn
- More late finishes — about one extra every 5 weeks each
- About 7 more days at work a year

## Still to settle

- **It cannot be run as it stands** — 1 gap of under 12 hours between shifts.
- **It cannot be run as it stands** — 60 minutes a week over the 35-hour contract, across the whole link.
- **Rule not met:** At least four on at the open, every day — here 3-5 · 4 · 4.
- **Rule not met:** At least five still on duty at 22:00, every day — here 5 · 4 · 3.
- **Rule not met:** Fourteen on a Saturday, ten on a Sunday — here 13 · 10.
- **Rule not met:** The ticket office: two early and two late, identical shifts, every day — here Mon-Fri no · Sat no · Sun no.
- **Rule not met:** Every weekday closer starts at 15:45 — here closers start at 16:25.
- **Rule not met:** At least two on the floor at every moment — here fewest 2 · 2 · 1.
- **Which link is used.** This is a proposal; colleagues' views come first.
- **Then who starts on which line.** The rota does not say who works which week.

# What changes, in numbers

Today's 20-week link beside Fifteen Turns. Green is better than today, amber is worse, unshaded is neither.

| QUESTION                                       | TODAY              | FIFTEEN TURNS       | IN PLAIN WORDS                                                  |

Early turns Late turns Cover (spare) week — four duties of seven, any turn Rest day

Mon-Sat hours average 35h 03m over 24 lines, a cover week counted as a contracted week · days worked average over the 20 working lines · Turns: how many different shift times the week works Monday to Friday; **bold** marks a one-turn week (see below) · Minutes: total duty minutes each day — Monday to Saturday adds up to 42,060, 60 minutes over the 42,000 of the contract

## The words on this page

**Link** — the whole rota: 24 weeks laid out as 24 lines. Everyone works line 1, then line 2, and so on round the wheel; the link needs 24 people.

**Turn** — a shift time, such as 06:20-13:20. An **early** starts before 11:00; a **late** starts at 11:00 or later.

**Cover (spare) week** — a week with no fixed times. You work four duties of the seven days, placed by the roster clerk to cover leave and sickness.

**The contract** — 35 hours a week, averaged over the 24 lines; a cover week counts as a full contracted week.

**The floor** — staff out on the station (gates, concourse, platforms); the ticket office joins it only at the quiet ends (page 5).

**Handover** — the overlap when one shift takes over from another.

**Line** — one week of the pattern, Sunday to Saturday. You move down a line each week, and line 24 goes back to line 1.

**Rest day (RD)** — a day off inside the contracted week. Two together make a proper break; one on its own does not count as a 48-hour break.

**Sunday** — not part of the contract. A Sunday duty is rest-day working, paid on top of the week, which is why the hours are shown Mon-Sat and all week.

**One-turn week** — one clock time Monday to Friday, with every day of the week an early or every day a late (shown bold in the Turns column); the easiest kind of week to live around.

**Opener / closer** — the first people on duty in the morning and the last at night.

**Fit** — how closely the number of people on duty follows the number of trains through the day; 0 is a perfect match, lower is better.

# A week, and the duty table

How a working week compares with today's, and every shift time beside the ones worked today.

## The shape of a week, against today

People on each shift time on a Saturday, a Sunday and — under Mon–Fri — the weekday with most of that time, so Mon–Fri can add up to more than work on one day. Green: more than today; amber: fewer; struck through: not used.

Monday to Friday add up to 35,700 minutes of duty and Saturday 6,360 — together 42,060 — 60 minutes over the 42,000 of the contract. Sunday adds 4,950, paid on top of the contracted week. 10 of the 15 shift times are new — nobody works them today.

# People on duty, hour by hour

Cover today and proposed against the measured December 2026 timetable (arrivals and departures, weighted by train length). A darker orange hour carries more of the day's trains.

How to read it: each blue square is the number of people on duty in that hour (darker blue = more people). The orange row is the timetable — the train carriages arriving and leaving in that hour, which is how busy it is (darker orange = busier). Read the columns top to bottom: cover should be thickest where the orange is darkest. The **fit** figure at the right end of each row scores that match for the whole day.

## Monday to Friday

staffed 06:20–23:55 · a row for each different weekday

**Ticket office.** Its staff are not floor cover, bar one of each pair at the quiet ends (until 08:00, or 09:00 Sunday; from 19:30; half on a Sunday evening). Today's office matches the plan except on **Sunday**: two earlies and **one** late (a 14:30–23:25 closer, in the office until 22:30), where the plan has two and two. This design does not mark who works in the ticket office, so its floor figure is everyone on duty minus the four office staff the plan asks for. The indented rows take the office out of each side, less its quiet-end help, so the floor rows compare like with like.

Cover weeks are not in these figures — a cover week has no fixed times — so real cover is a little higher. **Fit** is one number for how closely the people on duty follow the trains through the day: 0 would be a perfect match, lower is better. Page 1's weekday figure is worked out from the five weekdays combined, so it is not an average of the scores shown. On Sundays five trains in the December 2026 timetable arrive or leave after the 23:25 finish (the last at 23:54); the bar under the Sunday 23:00 hour marks the time after the finish. No duty runs past 23:25 on a Sunday — that is agreed practice and stays so (settled 28 Sep 2026) — so those trains fall outside any link's staffed day, today's included.

**Reading it.** The **floor** rows are the fair comparison. The ticket office is staffed to its opening hours, not to the trains, so counting it in can make a day look better or worse than the floor really is. The fit measures **shape, not numbers** — each hour's share of the day's staff against its share of the day's trains — so an extra person in a quiet hour makes it worse even though nobody is worse off. Read it beside the numbers of people, never alone.

# Hard limits and the December 2026 rules

Hard limits first — met or not. Then the December 2026 rules, each met or not. The fatigue factors are on page 7.

**Hard limits** — a design either meets these or cannot be run

- ✓ **No more than 13 days worked in a row** — longest possible run **9** days (today 9)  
Longest possible run is 9 days, within Chiltern's limit of 13. A cover week is 4 duties in 7 days and the roster clerk places them, so this is the worst case the link allows. Worked as a block of four rather than split day-on-day-off, the worst case is the same — **9** days. It does depend on where the roster clerk puts the four: placed well, the longest run is **7** days.  
The written source of the 13-day limit is still to be confirmed.
- ✗ **At least 12 hours between duties** — **1** rest under 12h anywhere in the rotation, Saturday-into-Sunday and line-into-line included (today 0)  
Tightest anywhere: **11h 15m — line 7 Sat 12:00-20:00 into line 8 Sun 07:15-15:45** (today's tightest: 12h 30m).
- ✗ **The contracted week, exactly** — **35h 03m** average Mon–Sat over the 24 lines, cover weeks counted as contracted weeks — **60 minutes over**  
701h of duty a week across 20 working lines, against 700h contracted. Sunday duties (82h 30m in all) are paid on top as rest-day working, as they are today. Individual weeks range 23h 30m–49h 00m; only the average is the contract.

**The December 2026 rules** — the same rules every proposal is measured against, with today's link beside them

| RULE                                                                   | TODAY'S LINK                       | THIS PROPOSAL                                      | WHAT THE RULE ASKS                                                                                                                                                 |
|------------------------------------------------------------------------|------------------------------------|----------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|

| Every weekday closer starts at 15:45                                   | × closers start at 15:15           | ✗ closers start at 16:25                           |                                                                                                                                                                    |
| At least two on the floor at every moment                              | ✓ fewest 2 · 2 · 2                 | ✗ fewest 2 · 2 · 1                                 | the ticket office counts only while its second person helps on the floor (until 08:00 or 09:00 on a Sunday, and from 19:30); checked every five minutes            |
| Handovers: 15 minutes to each closer, 20 in the ticket office          | ✓ floor met · ticket office 20 min | ✓ floor met · ticket office 20 min (posts assumed) | on a Sunday each opener also stays until 15 minutes after the last closer arrives; where the design does not roster the office pairs, the plan's posts are assumed |
| Sunday duties between 8h and 9h                                        | ✓ 8h 00m–8h 55m                    | ✓ 8h 00m–8h 30m                                    |                                                                                                                                                                    |
| No more shift times than today                                         | ✓ 18                               | ✓ 15                                               | today 18                                                                                                                                                           |

## Still to settle

- **Hard limits are broken** — 1 rest under 12 hours (the shortest 11h 15m, line 7 into line 8) and 60 minutes a week over the contract, across the whole link. As it stands this rota cannot be run.
- **6 of the 11 December 2026 rules are not met** — At least four on at the open, every day; At least five still on duty at 22:00, every day; Fourteen on a Saturday, ten on a Sunday; The ticket office: two early and two late, identical shifts, every day; Every weekday closer starts at 15:45; At least two on the floor at every moment. The shaded rows above give the figures.
- **New shift times.** 10 of the 15 are times nobody works today; page 4 lists them.

## ORR fatigue factors

From the ORR's good-practice guidance, *Fatigue Factors*, page 3 (December 2021).  $\triangle$  present — the pattern is in this design and worth a look, not a breach ·  $\checkmark$  clear — it is not ·  $\bullet$  standing — comes with the station's hours or with any rotating link, not with this design's choices · — means it does not apply here.

These are 25 roster patterns that tend to tire people — 21 from the Office of Rail and Road's good-practice list and 4 checks from the rail industry's fatigue guidance (MRSF) — long runs of earlies, short gaps between duties, start times that jump about. For each one this table asks whether the pattern is in the rotation, today and proposed, and how big it is. The list is guidance: a factor present is a question to discuss, never a pass or a fail, and a design showing nothing is not thereby approved.

| CODE | FACTOR                                                                                               | TODAY'S LINK                                         | PROPOSED                                             |

Design-specific findings: 7 (today 5). **Standing factors ( $\bullet$ ) are recorded for information, not counted.** FF2 comes with the station's 06:20 open, and FF18 — the ORR's concern with a rotation that changes shift type about once a week (*Managing rail staff fatigue*, 7.68) — comes with every weekly link, which moves everyone one line a week by construction; its week-to-week step is shown as information. **How to read the table.** The figure beside each mark is the worst case found, for today's link as for the proposal, except where a row counts only the duties the rota fixes: the 55-hour row counts a cover week as no hours, and FF8b counts none of its days as early. "As rostered" under FF11 is the worst of the places a cover week's four duties could fall when worked together, which is usual. The MRSF rows are extra checks from the rail industry's guidance on managing staff fatigue, listed beside the ORR's own. FF2 and FF15 use the ORR's early — a start from 05:00 to 07:00, not the 11:00 used elsewhere on this sheet; the station opens at 06:20, so any link has FF2. FF11 counts shifts between two-day breaks, so a single rest day does not reset it — that is why it can be longer than the most days worked in a row. **Cover weeks.** A cover week's four duties can fall in different ways, and on this design that moves the most days worked in a row (7 if placed well) and the run of 8-hour shifts (7 if placed well). Where they fall is for the roster office. This page is an aid to discussion, not a fatigue risk assessment.

# How the figures are worked out

In plain words — what each figure means and what it does not.

## Where the figures come from

Every figure is worked out from the rota itself — the 24 weeks on page 3 — by the Marylebone Roster app. None is typed in by hand, and the same calculation is run on today's link.

## Cover weeks

A cover week is marked on all seven days but works four of them, placed by the roster clerk. It counts as a full contracted week of hours and as four days at work. Where a figure depends on where those four fall, the worst case is shown.

## Sundays

Sunday is not in the contract: Sunday duties are overtime, as today. So "days at work" and the 35-hour week are Monday to Saturday. A Sunday off costs no annual leave.

## Each person, a year

Figures given "each, a year" are averages across the whole link: every week's duties, times 52, divided by the number of people. Somebody's own year depends on which week they start on.

## Following the trains

For each hour, the share of the day's floor staff on duty is set against the share of the day's train movements in the December 2026 timetable. 0 would be a perfect match; lower is closer. It measures the shape of the day, not a staffing requirement or passenger numbers. The ticket office is left out, except its second person helping at the quiet ends.

## Fatigue

The Office of Rail and Road's good-practice list of roster patterns that tend to tire people, with four rail-industry checks. It is guidance, not a pass or fail, and this is not a fatigue risk assessment. Two patterns — early starts at a 06:20 station, and a weekly rotation — come with every link, today's included, so they are recorded on page 7 and not counted.

## What is confirmed

The December 2026 staffing levels, a 24-person link and the Sunday cover were confirmed verbally on 29 September 2026. The written source of Chiltern's 13-day limit is still to be confirmed.

## What no page can tell you

Whether staff accept the new shift times, how leave and sickness cover land, and who starts on which week. Those are for the people who work it and the managers who roster it.

The rota is supplied beside this PDF as Fifteen-Turns-FT-24-EXT-import.txt, ready to paste into the Links page (Import), which re-runs every check here from the pasted weeks. The code **9a028392** in every footer is worked out from the 168 days of the rota and nothing else, so a printout always matches the design it came from.
