

# Proposed CEA Link — December 2026

How this rota would work from December 2026, and how it compares with today's link

Prepared 30 September 2026 · every figure is calculated from the rota, not entered by hand

## PROPOSAL

# Familiar Nine

No duty over nine hours, and most shift times ones people already work

CODE **F9-24-K31s**

FINGERPRINT **598a1294**

SET AGAINST today's 20-week link

CREATED 28 September 2026

## IN SHORT

Familiar Nine meets all 9 December staffing rules and stays inside every hard limit. For staff, the biggest gains are a full weekend off one in 4 weeks (today one in 5) and never more than 6 days in a row (today 9). The main trade-offs are more late finishes (about one extra every 2 or 3 weeks each) and the average shift 6 minutes longer.

**For discussion, not a decision.** This proposal has not yet been through the roster office or a union rep. Still to settle: which link is used — colleagues' views come first — and then who starts on which line; the rota does not say who works which week. This page is the whole proposal; pages 2 to 8 are the workings.

**What it takes:** 24 people, 4 more than today's 20 · 4 cover weeks for leave and sickness · 10 on duty every Sunday (today 8; the rules ask for 10), all paid as overtime — 82h 30m a week (today 68h 15m).

## Can it work?

Does it meet the December staffing rules?

**9 of 9**

rules met

today's link meets 4 · each rule on page 6

Can it be run within the hard limits?

**Yes**

inside every hard limit

shortest gap 14h20 (limit 12h) · most days in a row 6 (limit 13) · 35-hour contract exact

Any avoidable fatigue warnings?

**0**

none found

today's link has 5 · cover weeks at their worst · guidance, not a pass or fail · page 7

Does staffing follow the trains better?

**Yes**

closer than today on every day

weekdays 27.7 (today 52.0) · Sat 15.0 (65.9) · Sun 26.4 (71.7) · lower is closer · page 5

## What it would mean for staff

### Likely positives for staff

- A full weekend off one in 4 weeks (today one in 5)
- Never more than 6 days in a row (today 9)
- About 2 fewer days at work a year
- Every closing shift shorter — by about 30 to 45 minutes
- No shift longer than 9h00 (today 9h10)
- Shortest rest between shifts 14h20 (today 12h30)
- No avoidable fatigue warnings (today 5)
- Start times move less from week to week — 1h44 (today 4h00)
- More weeks on one shift time — 14 of 20 (today 7 of 16)
- 8 of its 16 shift times are already worked today

### What colleagues may be concerned about

- More late finishes — about one extra every 2 or 3 weeks each
- The average shift 6 minutes longer
- More 06:20 starts — about one extra every 17 or 18 weeks each
- 8 new shift times to learn

# What changes, in numbers

Today's 20-week link beside Familiar Nine. ✓ **green**: better than today on something the rules, the hard limits or the fatigue guidance aim for · ▲ **amber**: worse on one of those · ✗ **red**: a rule or limit broken · **unshaded**: a difference for colleagues to weigh.

Early turns Late turns Cover (spare) week — four duties of seven, any turn Rest day

Mon-Sat hours average 35h 00m over 24 lines, a cover week counted as a contracted week · days worked average over the 20 working lines · Turns: how many different shift times the week works Monday to Friday; **bold** marks a one-turn week (see below) · Minutes: total duty minutes each day — Monday to Saturday adds up to the contract (35 hours for each of the 20 working weeks = 42,000 minutes)

## The words on this page

**Link** — the whole rota: 24 weeks laid out as 24 lines. Everyone works line 1, then line 2, and so on round the wheel; the link needs 24 people.

**Line** — one week of the pattern, Sunday to Saturday. Everyone moves down a line each week, and line 24 goes back to line 1.

**Turn** — a shift time, such as 06:20-13:35. An **early** starts before 11:00; a **late** starts at 11:00 or later.

**Rest day (RD)** — a day off inside the contracted week. Two together make a proper break; one on its own does not count as a 48-hour break.

**Cover (spare) week** — a week with no fixed times. Whoever is on it works four duties of the seven days, placed by the roster clerk to cover leave and sickness.

**Sunday** — not part of the contract. A Sunday duty is rest-day working, paid on top of the week, which is why the hours are shown Mon-Sat and all week.

**The contract** — 35 hours a week, averaged over the 24 lines; a cover week counts as a full contracted week.

**One-turn week** — one clock time Monday to Friday, with every day of the week an early or every day a late (shown bold in the Turns column); the easiest kind of week to live around.

**The floor** — staff out on the station (gates, concourse, platforms); the ticket office joins it only at the quiet ends (page 5).

**Opener / closer** — the first people on duty in the morning and the last at night.

# Shift times

The shift times staff would need to learn, every shift time beside the ones worked today, and the shape of a working week.

**16**

shift times in all

**8**

already worked today

**8**

are new — nobody works them today

## The new times to learn

**06:20-15:00**

8h40 · early · Saturdays

**07:00-16:00**

9h00 · early · weekdays

**07:15-15:30**

8h15 · early · Sundays

**07:30-16:30**

9h00 · early · Saturdays

**09:00-18:00**

9h00 · early · Sundays

**14:30-22:30**

8h00 · late · Sundays

**15:15-23:25**

8h10 · late · Sundays

**15:45-23:55**

8h10 · late · weekdays

**No longer used:** 10 of today's 18 shift times — 06:20-13:45, 06:20-14:00, 07:15-15:45, 08:00-16:30, 08:30-16:30, 11:00-19:30, 12:00-20:00, 13:00-21:00, 13:30-22:00, 14:45-23:55.

People on each shift time on a Saturday, a Sunday and — under Mon-Fri — the weekday with most of that time, so Mon-Fri can add up to more than work on one day. **(+2)** and **(-1)**: more or fewer people on that time than today — a difference, not a verdict. **New**: nobody works it today. **Dropped**: worked today, not in this link.

Monday to Friday add up to 34,850 minutes of duty and Saturday 7,150 — together exactly 42,000 minutes — 35 hours for each of the 20 working weeks, the contract (a cover week counts as a full 35-hour week on top). Sunday adds 4,950, paid on top of the contracted week. 8 of the 16 shift times are new — nobody works them today.

## The shape of a week

| MEASURE                                 | TODAY                                       | PROPOSED              | IN PLAIN WORDS                                                |
|-----------------------------------------|---------------------------------------------|-----------------------|---------------------------------------------------------------|
| Rest breaks of two days or more         | 13 of 17                                    | 22 of 24              | of all the breaks between duties                              |
| Single rest days                        | 4 (1 beside a cover week)                   | 2                     | one beside a cover week depends on where its four duties fall |
| Working weeks by days worked, Sunday in | 1 × 3-day, 3 × 4-day, 11 × 5-day, 1 × 6-day | 6 × 4-day, 14 × 5-day | cover weeks left out                                          |
| Working weeks with a Sunday             | 8 of 16                                     | 10 of 20              | the number on duty each Sunday — all overtime                 |

# People on duty, hour by hour

Today's link and the proposal, hour by hour, against the December 2026 timetable. A darker orange hour carries more of the day's trains.

## How closely the floor follows the trains

Today's link

Weekdays

Sunday

71.7

Familiar Nine

✓ 27.7

✓ 15.0

✓ 26.4

The floor follows the trains more closely than today on weekdays, Saturday and Sunday. Lower is closer; 0 is a perfect match. The tables below are the workings.

**People on duty** in that hour — darker blue is more. Anyone on for any part of the hour counts, so a handover counts both people.

Read down each column: the most people should be under the darkest orange.

**Trains** — carriages arriving and leaving in that hour; darker is busier. A guide from the timetable, not passenger numbers.

Strongest rows: the floor and the trains — the two the match compares.

## Monday to Friday

staffed 06:20–23:55 · a row for each different weekday

## Good to know

- The ticket office.** Two people on every ticket-office shift, and not floor cover except at the quiet ends: Monday to Saturday one of each pair is on the floor until 08:00 and from 19:30, so the office row drops to 1 in those hours and the floor row gains one; where it shows 4, both pairs are there at the changeover. The "of whom" rows take the office out of each side, so the floor rows compare like with like.
- Sunday.** One early is on the floor until 09:00; the two lates are on the floor until 15:00, then both in the office — at least 30 minutes' handover — and one goes back to the floor from 18:00. Today one of the three 14:30–23:25 closers keeps the office until 22:30, so between 15:00 and 18:00 today's office row reads 1 where the proposal's reads 2.
- Reading the match.** The weekday figure at the top is worked out from the five weekdays together, not averaged from the day scores. It measures **shape, not numbers** — each hour's share of the day's staff against its share of the day's trains — so an extra person in a quiet hour makes it worse even though nobody is worse off. Read it beside the numbers of people, never alone.
- Cover weeks.** They are not in these figures — a cover week has no fixed times — so real cover is a little higher.
- Sunday's last trains.** On Sundays five trains in the December 2026 timetable arrive or leave after the 23:25 finish (the last at 23:54); the bar under the Sunday 23:00 hour marks the time after the finish. No duty runs past 23:25 on a Sunday — that is agreed practice and stays so (settled 28 Sep 2026) — so those trains fall outside the staffed day of any link, today's included.

## THE RULES

# Hard limits and the December 2026 rules

Three hard limits a rota must meet to be run at all, then the nine December 2026 staffing rules, each with today's link beside it.

## Hard limits — met, or the rota cannot be run

### MOST DAYS IN A ROW

**6**

✓ met · longest possible · limit 13 · today 9

Longest possible run is 6 days, within Chiltern's limit of 13. A cover week is 4 duties in 7 days and the roster clerk places them, so this is the worst case the link allows. Worked as a block of four rather than split day-on-day-off, the answer is the same — **6 days** — wherever the block falls, so this row does not depend on how a cover week is placed.  
The written source of the 13-day limit is still to be confirmed.

### SHORTEST REST BETWEEN SHIFTS

**14h 20m**

✓ met · anywhere in the link · limit 12h · today 12h 30m

Tightest anywhere: **14h 20m** — line 2 Fri 07:00-16:00 into Sat 06:20-15:00 (today's tightest: 12h 30m).

### THE 35-HOUR CONTRACT

**35h 00m**

✓ met · a week, Monday to Saturday, on average · must be exact

700h of duty a week across 20 working lines. Sunday duties (82h 30m in all) are paid on top as rest-day working, as they are today. Individual weeks range 24h 30m-41h 45m; only the average is the contract.

## The December 2026 rules

✓ 9 of 9 met

| RULE                                                                           | TODAY'S LINK                       | THIS PROPOSAL                      | WHAT THE RULE ASKS                                                                                                                                                                                                                     |

## FATIGUE CHECKS

# Fatigue checks

From the Office of Rail and Road's good-practice guidance, *Fatigue Factors*, page 3 (December 2021): 21 roster patterns that tend to tire people, with 4 checks from the rail industry's fatigue guidance (MRSF). ▲ present — worth a look, not a breach · ✓ clear · ● standing — comes with the station's hours or any weekly link · – does not apply here.

### AVOIDABLE FATIGUE WARNINGS

**0** today's link has 5 · each is a question to discuss, not a breach

### STANDING — COME WITH EVERY WEEKLY LINK

**2** early starts at a 06:20 station, and a rotation that moves everyone one line a week · recorded, not counted

For each of the 25 patterns this table asks whether it is in the rotation, today and proposed, and how big it is. A design showing nothing is not thereby approved: this is guidance, not a fatigue risk assessment.

| CODE | FACTOR                                                                                               | TODAY'S LINK                                 | PROPOSED                                     |
|------|------------------------------------------------------------------------------------------------------|----------------------------------------------|----------------------------------------------|
| FF2  | Early shift starting 05:00–07:00 <small>Time of day</small>                                          | ● 24                                         | ● 30                                         |

| MRSF | More than 55 hours worked in any 7-day period <small>Cumulative</small>                              | ▲ 60.8                                       | ✓ 51.3                                       |
| MRSF | More than 7 consecutive 8h shifts <small>Cumulative</small>                                          | ▲ 9                                          | ✓ 6                                          |
| FF17 | Backward rotating pattern <small>Circadian</small>                                                   | ✓ 10 backward / 12 forward                   | ✓ 12 backward / 12 forward                   |
| FF18 | Rotating pattern of about a week <small>Circadian</small>                                            | ● 20-line rotation · typically 4h 00m a week | ● 24-line rotation · typically 1h 44m a week |
| FF19 | Successive start times varying by more than 2 hours (definition to confirm) <small>Circadian</small> | ▲ 6                                          | ✓ 0                                          |
| FF13 | Less than 12h rest in any 24h <small>Intervals between duties</small>                                | ✓ 0                                          | ✓ 0                                          |

Also on the list, and applying to neither link: time of day (FF1) · duty length (FF4) · cumulative (MRSF) · night shifts (FF6, FF8, FF9, FF12, FF14, FF16, FF20).

- **Standing factors (●) are recorded for information, not counted.** FF2 comes with the station's 06:20 open, and FF18 — the ORR's concern with a rotation that changes shift type about once a week (Managing rail staff fatigue, 7.68) — comes with every weekly link, which moves everyone one line a week by construction; its week-to-week step is shown as information.
- **How to read the table.** The figure beside each mark is the worst case found, for today's link as for the proposal, except where a row counts only the duties the rota fixes: the 55-hour row counts a cover week as no hours, and FF8b counts none of its days as early. "As rostered" under FF11 is the worst of the places a cover week's four duties could fall when worked together, which is usual. The MRSF rows are extra checks from the rail industry's guidance on managing staff fatigue, listed beside the ORR's own. FF2 and FF15 use the ORR's early — a start from 05:00 up to 06:59, not the 11:00 used elsewhere on this sheet; the station opens at 06:20, so every link has FF2. FF11 counts shifts between two-day breaks, so a single rest day does not reset it — that is why it can be longer than the most days worked in a row.
- **Cover weeks.** A cover week's four duties can fall in different ways, and on this design that moves the run of 8-hour shifts (5 if placed well). Where they fall is for the roster office. This page is an aid to discussion, not a fatigue risk assessment.

# Can I trust these numbers?

How firm each figure is, what it is based on, and what no rota can tell you.

## Firm

Worked out exactly from the rota, and checked again by the app:

- the rest gaps and the most days in a row
- the 35-hour contract
- full weekends off
- how many people are on duty, hour by hour
- the shift times and their lengths

## A guide, not a verdict

Useful for comparing, never a pass or a fail:

- how closely staff follow the trains
- the fatigue warnings — guidance from the rail regulator
- how familiar the shift times are
- figures “each, a year” — averages over the whole link

## Not known yet

No rota can say these; they are for the people who work it and the managers who roster it:

- where each cover week’s four duties fall
- how leave and sickness land
- whether staff accept the new shift times
- Wembley event days — the rota follows the trains, not the crowds
- who starts on which line
- the written source of the 13-day limit

## What each figure is based on

### Where the figures come from

Every figure is worked out from the rota on page 3 by the Marylebone Roster app, and the same calculation is run on today’s link. None is typed in by hand.

### Cover weeks

Marked on all seven days but worked on four, placed by the roster clerk. A cover week counts as a full contracted week and as four days at work. Where a figure depends on where the four fall, the worst case is shown. Their shift times are not known yet, so yearly counts and rest gaps cover the fixed duties only; whatever is later given in a cover week must still be rostered within the normal limits.

### Sundays

Sunday is not in the contract: Sunday duties are overtime, as today. So “days at work” and the 35-hour week are Monday to Saturday. A Sunday off costs no annual leave.

### Each person, a year

Every week’s duties, times 52, shared across everyone on the link — Sunday overtime included. “Days at work a year” is Monday to Saturday only: the days a week  $\times 365 \div 7$ . Somebody’s own year depends on which week they start on.

### Following the trains

For each hour, the share of the day’s floor staff is set against the share of the day’s train movements in the December 2026 timetable; the differences are squared — so one big mismatch counts far more than several small ones — added up and multiplied by 10,000. 0 would be a perfect match; lower is closer. The staff share uses the minutes each person spends on the floor, finer than the whole-person counts on page 5, where anyone on for part of an hour counts. It measures the shape of the day, not a staffing level: an extra person in a quiet hour makes it worse although nobody is worse off. The ticket office is taken out first: it is staffed to its opening hours, not to the trains, which is why its rows on page 5 carry no match figure.

### The ticket office

Two people on every ticket-office shift, not floor cover except at the quiet ends: Monday to Saturday one of each pair is on the floor until 08:00 and from 19:30. On a Sunday one early is on the floor until 09:00; the two lates until 15:00, then both in the office, one back on the floor from 18:00. Today one person keeps the office on a Sunday afternoon and evening.

### Rest, runs and weekends

The shortest gap is the single tightest one anywhere, Saturday into Sunday and line into line included. The most days in a row counts Sunday overtime too, with a cover week placed as badly as it can be. A full weekend off is a Saturday off then a Sunday off. The shortest gap is one gap: a rota with many rests of just over 12 hours reads the same as one with none.

### Handover

The overlap when one shift takes over from another. The December rules ask for 15 minutes to each closer, and 20 in the ticket office (30 on a Sunday) — page 6.

### Familiar shift times

How many of the shift times somebody already works today — a rough guide to how much there is to learn, not to what staff will accept.

### Fatigue warnings

The Office of Rail and Road’s good-practice list of roster patterns that tend to tire people, with four rail-industry checks. A warning is a question to discuss, not a breach, and this is not a fatigue risk assessment. Early starts at a 06:20 station and a weekly rotation come with every link, today’s included, so they are recorded on page 7 and not counted. In the ORR’s checks an early start is one from 05:00 up to 06:59 and a “block” of earlies is two or more in a row; the start-time rows count how many times a start moves by more than two hours (a count, not hours); the week-to-week move is the average change in a week’s mean start time, Sundays included and cover weeks left out.

### What is confirmed

The December 2026 staffing levels, a 24-person link and the Sunday cover were confirmed verbally on 29 September 2026.

The rota is supplied beside this PDF as Familiar-Nine-F9-24-K31s-import.txt, ready to paste into the Links page (Import), which re-runs every check here. The code **598a1294** in every footer is worked out from the 168 days of the rota and nothing else, so a printout always matches the design it came from.
