* Monday to Saturday, with a cover week counted as 4 days (Sundays are overtime and left out). † Each person, on average across the whole link; cover weeks add none. “Shift times” counts different start–finish times; “new” means nobody works that time today. Fatigue patterns are the ORR’s good-practice list plus rail-industry checks — reported, never pass or fail. Full detail for each proposal is in its own eight-page sheet; the rules themselves are in December-2026-Rules.pdf.
