

December 2026 link proposals — at a glance

The one proposal against today's link, sorted by December rules met, then avoidable fatigue warnings; a proposal that breaks a hard limit cannot be run as it stands and comes last. Every figure is worked out from the rota by the Marylebone Roster app. Staffing levels and Sunday cover confirmed verbally (29 Sep 2026); the 26-line link, 5 cover weeks and a ceiling of 219 contracted days a year set on 1 Oct 2026.

Proposal · code	December rules met	Avoidable fatigue warnings§	Most days in a row§	Full weekends off	Shortest fixed-duty rest	Shift times	Days a week*	Days a year*	Average fixed shift, Mon–Sat	Finishes 23:00+ a year†	Saturdays a year†
Today's link 20 weeks	4 of 9	4 up to 5§	7 up to 9§	4 in 20	12h 30m	18	4.20	219.0	8h 14m	39	26
Second Nature SN-26-F2	9 of 9	0	6	7 in 26	14h 20m	15 (6 new)	4.19	218.6	8h 16m	42	28

* Monday to Saturday, with a cover week counted as 4 days (Sundays are overtime and left out). † Each person, on average across the whole link, Sundays included; cover-week duties are not known yet and are left out. "Shift times" counts different start–finish times; "new" means nobody works that time today. § On the duties the rota fixes, the cover weeks left out for the proposal and today alike; "up to" is the worst place a cover week's four duties could fall. Avoidable fatigue warnings come from the ORR's good-practice list plus rail-industry checks, leaving out the two that come with every weekly link — reported, never pass or fail. Full detail for each proposal is in its own eight-page sheet; the rules themselves are in December-2026-Rules.pdf.
