

December 2026 link proposals — at a glance

All 10 proposals against today's link, sorted by December rules met, then avoidable fatigue warnings. Every figure is worked out from the rota by the Marylebone Roster app. Staffing levels, a 24-person link and Sunday cover confirmed verbally (29 Sep 2026).

* Monday to Saturday, with a cover week counted as 4 days (Sundays are overtime and left out). † Each person, on average across the whole link, Sundays included; cover-week duties are not known yet and are left out. “Shift times” counts different start–finish times; “new” means nobody works that time today. § On the duties the rota fixes, the cover weeks left out for the proposal and today alike; “up to” is the worst place a cover week’s four duties could fall. Avoidable fatigue warnings come from the ORR’s good-practice list plus rail-industry checks, leaving out the two that come with every weekly link — reported, never pass or fail. ‡ A rule the owner set aside for that proposal alone (Polished Clean: the ticket office pairs, 30 Sep 2026). Full detail for each proposal is in its own eight-page sheet; the rules themselves are in December-2026-Rules.pdf.
