MARYLEBONE ROSTER · LINKS DESIGNER · BESIDE THE SHORTLIST

The other fifteen designs

What each has, and what it pays, beside Balanced V6, Level Crossing and Middle Ground

Prepared 9 November 2026 · every figure is computed from the rotas

Beside the three, each design here has something and pays for it, meets every December staffing rule and has its own sheet. All but Balanced V10, Clockface and Short Working put closing weeks side by side, which the three keep apart, cover weeks aside.
